

# AerialWorks Monthly Plan Options

We are happy to announce that we will be starting classes back up again in the fall! We are excited for this, but it will look very different than it was before. Our class offerings are limited as well as the number of people we can have in each class. Right now, the plan is to have 6 people in each class, each using an apparatus that is their own for the day. Everyone will be spaced out as much as possible. We will have greater time between classes to allow for students to come and go as well as time for the necessary rigging change-outs, which will be a lot! Please see future emails about further guidelines.

*We are grateful for all support during this time and we hope that we can thrive in this new and different format. With your help, we are confident that we can!*

## MONTHLY PLAN DETAILS

When we transition back to classes, you are welcome to remain on private lessons OR you can start classes again. We understand that some people would prefer to remain in private lessons and that's okay! You are welcome to do that. See below for how your plan is flexible and can vary depending on whether you'd like to do classes, privates or a mix of both! We appreciate all your financial support.

*Note: We are not yet sure about online classes. If interest, we may still have them. We'll keep you posted.*
